

SADIQ JAFARLI

DEVELOPER

ABOUT ME

As a passionate and dedicated Full-Stack Developer, I have extensive experience in both frontend and backend development. My journey in software development has allowed me to work with various technologies, frameworks, and tools, enabling me to build dynamic, scalable, and high-performance applications.

On the Frontend I use HTML5, CSS3, JavaScript, TypeScript, React js, Vue Js, Next js and React Native

On the backend, I have expertise in Node.js, Express.js, and MongoDB,
