- Empathy
- Continuous Learning
- Adaptability

Vugar Guliyev

QA Manual tester

I am a Manual QA Tester with 3 years of experience in software development. I am passionate about ensuring software quality through structured testing processes and staying up to date with industry trends. My expertise includes Manual Testing, Postman, Cypress, Web Testing, Redux, JavaScript, PHP and Laravel. I have strong experience in exploratory testing, integration testing, regression testing, and user acceptance testing (UAT). I create detailed test cases, document defects, and collaborate with developers to ensure efficient bug resolution. My hands-on approach allows me to identify edge cases and improve product stability before release. By detecting issues early and maintaining high-quality standards, I contribute to enhancing the overall user experience. I am always eager to take on new challenges and contribute to innovative projects in the tech industry.

Experience

2024 march-august
'Massolit' at **Poland**

QA manual tester
As a QA Manual Tester intern, I was responsible for testing a coffee shop's website, ensuring functionality, usability, and compatibility across different devices and browsers. During this time, I gained hands-on experience in Web Testing, API Testing, UI Testing, Regression, and Integration Testing. I executed test cases, documented issues, and reported bugs to the development team. Additionally, I actively participated in test planning, collaborated with developers, and improved my communication skills while working in a team environment.

2019 - 2022
Keepface

Junior Full Stack Engineer
Keepface is an influencer marketing platform that helps brands connect with influencers to create targeted, engaging content.While working at Keepface, I gained experience with various technologies such as Web testing, APIs, JavaScript, Postman, Php and Laravel. My skills in working within a team environment have enabled me to learn and teach new technologies effectively, which has been a significant advantage in my professional growth.

2017 - 2018
Idealand Agency

Intern Backend Engineer
Developed and maintained websites using a wide range of technologies, including HTML, CSS, SQL, Yii2 and PHP. Successfully built and contributed to several websites during my tenure at Idealand, including the development of the largest ecommerce platform in Azerbaijan.
